

Owl Class - Term 5 Learning Overview

Skylark 'Create' Project: Landscape

Year 6 enquiry question:
Can the Arts enrich life?

The **key concepts** of Individuality, Beauty, Creativity and Media

Art

In Art, our focus is 'Landscape'. We will work through the '7 Elements of Art': line, shape, texture, form, space, colour and value. This term the children will also begin artistic preparations for the PATINA 'Y6 Moving On' Parade' which takes place on Friday 2nd July - date for your diary! Our PATINA artist this year is Sally Edwards. Sally will work with the children to develop their ideas into wonderful creations!

Music

In Music, we will explore elements of music, including dynamics, tempo, timbre, pitch, rhythm and structure. From week 2, Viv Berry, a music and drama specialist, will run weekly workshops with Owl class to devise their end of Year 6 production. These workshops will take place each Wednesday morning and will include singing, dancing and acting.

Class Text: 'The Dam' By David Almond

With exquisite artwork by Levi Pinfold

Kielder Water is a wild and beautiful place, rich in folk music and legend. This stunning, wild and atmospheric picture book tells the true story of a musician father and his daughter. The children will be exploring the story and artwork in the book throughout the term, using David Almond's literary devices to inspire their own writing. Our creative writing focuses this term are: repetition, speech, questions, synonyms, adverbials, similes, and metaphors.

Reading

We have just started Part 4 of our class text: 'Welcome to Nowhere', and we hope to journey with Omar and his family to the end of the book this term. In whole class Guided Reading sessions we will explore and analyse excerpts from a variety of genres of text, including short stories, information texts and poetry.
