

The Government has announced (<https://www.parliament.uk/business/publications/written-questions-answers-statements/written-statement/Commons/2020-03-23/HCWS176/>) that it will not publish any school or college level educational performance data based on tests, assessments or exams for 2020. This update published here (<https://www.gov.uk/government/publications/coronavirus-covid-19-school-and-college-performance-measures>) clarifies what this means for the way school and college accountability will operate for 2019/20.

Question level analysis year 6

This section allows you to assess how your pupils performed in the key stage 2 tests by subject strand, by question and by individual pupils and compare these with the national average.

For year 6, the default view is the full data for the whole year cohort.

To assess the performance of a custom group of pupils, input their UPNs (unique pupil numbers). Any changes you make in the year 6 custom view will only apply to your individual user profile. This includes the data download section.

This is QLA 2018/2019 data.
